

27th October 2022

Dear Friends,

The Council has now requested an extension until December 12th, and so the Queens' building proposal will NOT be decided at the Planning committee meeting on November 2nd.

This is because the reports on bats/lighting and drainage commissioned by the Friends of Paradise have thrown considerable doubt on the data and evidence supplied by Turley on behalf of Queens'. They are damning in terms of the impact this development would be likely to have on bats, biodiversity and the flood risk to the neighbourhood.

We will keep you updated when we know what is happening next, but meanwhile there are new posts and reports on the Friends of Paradise website.

Best wishes,
Pam Gatrell.
